To whom it may concern:

United Cerebral Palsy of Sarasota-Manatee, Inc has worked with Karen Eber Davis since 1999. She provided consulting work for our agency that allowed us to seek and obtain funding from agencies like the Wilson-Wood Foundation and the Jane B Cook Trust.

We have found Ms Davis to be highly competent on the various tasks such as presenting workshops for participants to examine opportunities to increase programs, prioritize options, and how to approach growth for programs. It also covered writing grant proposals from the funder's viewpoint, developing budgets which was instructional not only for new writers but a refresher course for the experienced writer.

She continues to provide an updated resource guide for non-profit funding requests by publishing a local sources manual for a three county area that is a great reference when researching a particular need by our agency.

Karen shows excellent character with her patience and assistance to staff when doing consulting work for our agency by always responding in a timely manner to our questions or concerns and providing an excellent resource for us to access when needed.

With warmest regards,

Wendy Mann Resnick
Executive Director
